A RFI may be used during the market research phase of an acquisition to assist the County in identifying potential proposers, approaches, or general pricing estimates. This specific RFI is intended to result in a pool of vendors that are qualified to provide for quick reaction retrieval of potentially rabid animals threatening public safety.

III. RFI Purpose and Process

The purpose of this RFI is as stated in Section I above. The County intends to initially select, and consistently maintain, at least (2) active vendors to serve as potential sources

for the work described in Section IV below. The initial selection of vendors will be based on County evaluation of the following factors:

- a. Range of stated and evidenced capabilities
- b. Type and range of similar related public sector experience
- c. Past performance record and licensure

Attachment A describes the basic technical qualifying input that must be provided by any responding vendor to be considered as a potential source for the required services. Vendors may provide additional qualifying information within Attachment A.

Attachment B is the draft of the general Agreement that each selected vendor will be required to execute in order to be included as a potential source for the required services. All vendors are advised that the County intends no significant modification of the terms and conditions currently included in the draft Agreement. Any comments regarding the content of the draft Agreement must be provided as a part of the vendor's initial response.

Please return either one electronic or three hard copies of the completed response to the RFI, each with a completed Attachment A and any comments in regards to Attachment B, to the location stated in Section II above.

Response by the designated date and time will ensure full consideration of your response.

IV. Requirement Overview

Retrieval services may be required at any time 7 days a week 8:00 AM through 10:00 PM. There may be rare occasions when service outside of those operating hours may be required. Examples of the work to be performed include, but are not limited to:

- retrieving a trapped mammal that is acting strangely or appears sick;
- locating and retrieving any potentially rabid animal that has been reported in an area having high potential for human contact such as a playground or school yard, or
- any situation similar to the above examples

The services will generally be limited to wildlife that are acting unusual or appear sick. Any trapping, removal or other interaction with wildlife must follow all rules and regulations of the Florida Fish and Wildlife Conservation Commission. Lake County Animal Control Officers will be the primary responder in any situation where a human has been bitten or has come into direct contact with an animal known, or suspected of having, rabies.

V. Caveat Regarding Quantity of Work:

Future total work volume is largely dependent upon future grant and funding conditions. No specific degree of effort is guaranteed under the program as a whole, or to any one specific vendor, under the program.
